

greeting

Greeting is saying "hello".

We can **greet** people in lots of different ways. Coronavirus is changing how we **greet** people. We can only **touch** the people we live with.

At school and away from our homes, we can **wave**.

At school and away from our homes, we can **say** and **sign** "hello", "hi", "good morning" or "good afternoon".

We can **hug** and **high five** our family who we live with, too.

greeting
